25 April 2016

Dear Cllr Thomas,

Thank you for your email of 11 April regarding the Llandeilo Roundabout on the A483 -A40.

Ensuring the safety and reliability of the strategic road network is my primary transport concern. A review of speed limits across the trunk road network was completed at the end of last year and the findings can be seen on the following website: [www.traffic-wales.com/Trunkroadsafetyreview.aspx](http://www.traffic-wales.com/Trunkroadsafetyreview.aspx).

We have work planned for this year to improve safety and encourage lower speeds on the A40, on either side of the roundabout. I have also asked my officials to continue to monitor the roundabout in order to identify further potential safety improvements.

My officials will assess if the trees and bushes on the roundabout are a safety issue and if any works are needed.

*Edwina Hart*
